One unexpected event can undo years of saving

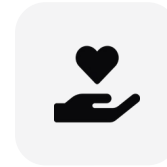

Rising medical bills

Private hospital costs in Malaysia keep climbing — one admission can run into tens of thousands of ringgit.

The protection gap

Many rely only on EPF or employer cover, which often stops the moment a job — or a life — changes.

Your family's future

Without a plan, loved ones may inherit debt and uncertainty instead of security and a clear, halal legacy.

Takaful: protection built on cooperation

Takaful replaces the interest, uncertainty and speculation of conventional insurance with mutual donation (tabarru') and shared responsibility. Participants help one another from a cooperative fund — protection practised as an act of brotherhood.

No Riba

No interest in how the fund is managed or invested.

No Gharar

No hidden terms or excessive uncertainty.

No Maysir

No gambling or speculation with your protection.
