The Malaysian Family Protection Guide

How to protect your family's health, wealth and future — the Shariah-compliant way.

One event can undo years of saving

Healthcare costs keep rising

A single private-hospital stay in Malaysia can cost tens of thousands of ringgit — and medical inflation runs well above general inflation.

The protection gap is real

Many families rely only on EPF or employer cover. Both can disappear the moment a job changes — leaving a dangerous gap.

Your family inherits the outcome

Without a plan, loved ones may inherit debt and uncertainty. With one, they inherit security and a clear, halal legacy.

What is takaful, and why it's different

Takaful is a Shariah-compliant protection scheme based on mutual cooperation (ta'awun) and donation (tabarru'). Instead of paying premiums to an insurer, participants contribute to a shared fund that helps any member who suffers a loss — protection practised as an act of brotherhood, free from what Islam prohibits.

No Riba

Free from interest in how the fund is managed or invested.

No Gharar

Free from hidden terms or excessive uncertainty.

No Maysir

Free from gambling or speculation with your protection.

Four pillars of family protection

Medical Takaful

Comprehensive hospital & surgical cover, up to RM2,000,000/year with no lifetime cap. Cashless at panel hospitals, renewable to 80.

Hibah & Family

A clear, Shariah-compliant legacy: death & TPD cover, critical illness, and hibah so your benefit reaches family without dispute.

Savings & Investment

Investment-linked, Shariah-compliant plans that grow education and retirement funds while keeping you protected.

Accident & Motor

Personal accident cover plus Z-Driver motor takaful — PA up to RM175k/car, flood add-ons and unlimited courtesy car.

A simple protection checklist

- ✓ Do you have medical cover that won't run out after one big claim?
- ✓ Would your family keep their lifestyle if your income stopped?
- ✓ Is your takaful benefit set up as hibah, so it reaches them cleanly?
- ✓ Are your children's education and your retirement being funded?
- ✓ Is your car covered comprehensively, with flood protection?

Not sure on any of these? Let's talk.
